FUEL AND POWER IN POLAND**LODZ POWER PLANT ESTABLISHES NEW RECORD --** Glos Ludu, No 110, 10 Nov 48

On 4 November 1948, the workers of the Lodz Power Plant established two new records: 1,030,000 kilowatt-hours during a 24-hour production period in the Lodz Power Plant and a peak-load of 57,000 kilowatts. These figures almost equal prewar production.

"ZABRZE" POWER PLANT -- Glos Ludu, No 312, 12 Nov 48

On 9 November 1948, the "Zabrze" Power Plant, one of the more important power plants in Gorny Slask, fulfilled its yearly production plan with 331 million kilowatt-hours.

POWER PLANT IN LAZISKA GORNE -- Glos Ludu, No 317, 17 Nov 48

In October 1948, the power plant in Laziska Gorne, located in Gorny Slask, attained a power production of 75,533,000 kilowatt-hours as compared with the planned production of 73 million kilowatt-hours. This is 103.2 percent production of the plan. Production for one day during October by this plant was 2,441,490 kilowatt-hours. The power plant has a production capacity of over 127,000 kilowatts. In addition, this is one of the most economical power plants; using coal dust, it produces one kilowatt-hour from 4,500 calories while the average for other power plants is 5,000 - 6,000 calories.

COKE PLANT PRODUCTION -- Glos Ludu, No 308, 8 Nov 48

The "Bialy Kamien" Coke Plant completed its yearly plan with a production of 245,200 tons of coke. This is the first coke plant to complete its yearly production plan. For the rest of the year it anticipates a production of 25,000 tons above its quota.

WROCLAW GAS PLANT -- Rzeczpospolita i Dziennik Gospodarczy, No 323, 23 Nov 48

The Wroclaw Gas Plant will be one of the largest of its type in Poland after completing its expansion program. During 1948 it assigned 172 million zlotys for such work. This plant employs 950 workers and provides the city with about 180,000 cubic meters of gas for lighting purposes over a 24-hour period. These results have been made possible through the reconstruction of four central generators for furnaces and the repair of three batteries for production of water gas.

CABLE INSTALLATION -- Glos Ludu, No 326, 26 Nov 48

On 4 November 1948, the Warsaw Power Plant began construction of a 15,000-volt underground electric cable which will unite 16 stations. This means greater power for industrial installations as well as for private dwellings. This work will be completed by 1 January 1949 unless weather conditions are unfavorable. This cable will run from the Kosciuszkowski Wybrzeze to Zelazna Street, through Sole, Ludna, and Ksiazeca Streets, Trzech Krzyzy Place, Stalin Avenue, Bagatela Street, Unia Lubelska Place, Pulawska Street, Szustec Street, Niepodleglosc Avenue, Madalinski Street, back to Niepodleglosc Avenue, Filtrow, Sucha, and Lindley Streets.

ADDITION TO COAL GAS MAIN -- Rzeczpospolita i Dziennik Gospodarczy, No 331, 1 Dec 48

During the short construction season of 1948, a 54.74-kilometer segment of a high-pressure coal gas main was added to the Gorny and Dolny Slask network. This network now includes 750 kilometers of high-pressure and 650 kilometers of low-pressure gas mains, representing 4,488 tons of pipe.

NEW HIGH IN DAILY COAL PRODUCTION -- Glos Ludu, No 321, 21 Nov 48

The "Zabrze-Wschod" Coal Mine is now achieving a new high in daily production -- over 7,000 tons.

"ZABRZE-WSCHOD" MINE -- Glos Ludu, No 328, 28 Nov 48

The daily production of the "Zabrze-Wschod" Coal Mine in Zabrze has reached 8,000 tons. One miner worked 15 meters of coal wall, a heretofore unheard of record at the mine.

ELECTRIFICATION OF VILLAGES -- Rzeczpospolita, No 324, 24 Nov 48

In Lodz Province, 81 villages are to be electrified in 1949. The first villages to be electrified are those with agricultural machinery centers and also agricultural cooperatives. The purpose of electrification is to increase production rather than consumption. The state's contribution toward this end is 32,500,000 zlotys.

ELECTRIFICATION OF VILLAGES -- Rzeczpospolita, No 351, 11 Dec 48

As of 21 August 1948, 138 villages have been electrified in the Dolny Slask areas; in the Wroclaw area, 60 villages; Walbrzych area, one; Jelenia Gora area, 23; and Legnica area, 54.
